

## **Plan to attend . . .**

Whether you're considering tiling for the first time, adding to an existing field or experiencing blowouts and other challenges, this workshop will empower you to more fully understand how drainage systems work and how planning ahead is the difference between improving crop yields and an expensive failure.

Industry experts will discuss the basics of tile systems and how to locate/manage/add to already installed systems. The session will also include a panel discussion with local professional drainage contractors to answer your questions.

The seminar will be held at the Jefferson County Highway Department, 1425 South Wisconsin Drive, Jefferson, WI from 9:00 a.m. to 3:45 p.m. The cost, including lunch, is \$25.00 before or on February 23, 2018.

Sincerely,

LaVern Georgson, Agriculture Educator
