# Regional On-Farm Production Workshops

## Growing Greens

This workshop is aimed at training growers considering production of greens for direct market outlets (tailgate markets, farm stands, CSA, etc). Craig Mauney, Area Specialized Agent, Commercial Fruit and Vegetable Production will lead the group in discussing production for a variety of greens in the region. Specific topics include cultivar selection, site establishment (soil conditions and planting), fertilization, irrigation, pruning, harvesting, and resources for pest control. Workshop includes a lecture followed by a hands on activity such as insect and disease scouting or pruning. All participants will receive a resource notebook and a scouting lens to take home.

### **Haywood County**

April 17, 1:30-5:30 pm

10 Acre Garden

Chambers Farm Lane, Canton NC
