Flowering Tree Identification for Green Industry Professionals

Wednesday, November 6, 2019, 9:00 a.m. - 3:00 p.m.

Penn State Berks Campus, Janssen Center, 2080 Tulpehocken Road, Reading PA 19610

Flowering trees provide multiple seasons of interest in landscapes. In addition to beautiful flowers, selections are available with a range of sizes and many offer ornamental fruits, colorful foliage and handsome bark. In this class, we will discuss identification characteristics, seasonal interest, site requirements, and common pests and diseases. Join us to improve your ability to identify and use flowering trees in Pennsylvania landscapes!

This course is for all persons involved in the green industry including landscapers, nursery operators, garden center employees, etc. No prior study of woody ornamental plants is required. The workshop will consist of classroom time and field study if the weather permits, so please dress appropriately.

The instructor is Dr. David Sanford, Professor of Horticulture, Penn State University.

This class has been approved for two category 06, 18, 23, and PC pesticide update credits and 5.5 ISA certified arborist credits.

Cost is \$60 per person which includes morning refreshments, lunch, and handouts.

Free parking is available in the big visitor lot behind the Janssen Center.

To register online: <https://extension.psu.edu/woody-plant-identification-flowering-trees>
