Flowering Tree Identification for Home Gardeners

Friday, November 8, 2019, 9:00 a.m. - 3:00 p.m.

Penn State Berks Campus, Janssen Center, 2080 Tulpehocken Road, Reading PA 19610

Dear Home Gardener:

Flowering trees add long lasting beauty to residential landscapes. In addition to beautiful flowers, they can offer outstanding fall color, ornamental fruit and lovely bark. By carefully selecting flowering trees for your landscape, you might avoid a lot of maintenance costs, and enjoy watching them thrive for years.

This course is for all persons interested in horticulture. No prior study of woody ornamental plants is required. Join us for classroom time and field study, if the weather permits, so please dress appropriately!

The instructor is Dr. David Sanford, Professor of Horticulture, Penn State University. This course qualifies for the Penn State Master Gardener Advanced Training series in Plant Identification.

Cost is \$60 per person which includes morning refreshments, lunch, and handouts.

Free parking is available in the big lot behind the Janssen Center.

To register, go online to: <https://extension.psu.edu/flowering-tree-identification-for-home-gardeners>

If you cannot register online, please call 1-877-345-0691 for assistance, M - F, 8:30 a.m. - 4:30 p.m.

Registration deadline is November 6, 2019.
