

SPLIT NITROGEN COST SHARE

4R FARMER,

*Add an additional split
of nitrogen to your 2023
corn crop for \$15 an acre.
Enroll 40 acres or 400 acres!*

*AVAILABLE IN THE
CHESAPEAKE BAY
WATERSHED*

***IN DELAWARE,
MARYLAND, OR
PENNSYLVANIA***

RIGHT TIME

***ENROLL
TODAY***

(c) 484-788-7263

*ericrosenbaum@
rosetreeconsulting.com*

PAST DATA

*To understand yield changes,
the 4R alliance will ask for
manure and crop history.*

DATA COLLECTION

*We ask for yield maps, nitrogen
application verification, field
location, and nitrogen split
breakdown.*

END GOAL

*Analyzing local split nitrogen
applications on farms across
the region for three years may
or may not showcase the
efficiency of nitrogen timing.*
